CAEM produce arredamento per negozi con vari sistemi e tipologie: la tabella riporta nelle righe le varie applicazioni Retail e Lifestyle, nelle colonne i Sistemi d'arredo suggeriti. Le scaffalature CAEM sono forti e robuste, ma permettono l'inserimento di innumerevoli espositori, particolarmente necessari negli ambienti retail di elettronica. Oltre trenta finiture disponibili, sistemi per illuminazione e prodotti ad hoc come pedane e banconi, rendono CAEM la scelta piu adatta per l'arredo. / CAEM manufactures several shopfitting systems: the tables lines are the retail environments applications whilst columns show the suggested systems. CAEM shelving system are strong and robust, ma also very flexible due to the many displays available. These are particularly useful when designing electronics retail environments, where references are several and display and merchandising must be optimized.
